POLES

**FIZAN**

Domenico Fincati ha fondato Fizan nel 1947 ed è stato il primo al mondo a produrre bastoni da sci utilizzando l'alluminio. L'azienda ha le sue radici in Italia, ad un'ora da Venezia, dove la produzione 100% Made in Italy permette un controllo completo e costante su tutti i prodotti. I processi produttivi sono conformi a tutte le normative europee circa il divieto di utilizzo di sostanze dannose.

Domenico Fincati founded Fizan in 1947 and was the first in the world to produce aluminum ski poles. The company is situated in Italy, one hour from Venice, where 100% Made in Italy production is a complete and constant control over all products. The production processes comply with all European regulations regarding the prohibition of the use of harmful substances.

In un'ottica di sostenibilità Fizan non stampa più nessun catalogo, riducendo l'utilizzo della carta, per passare da un catalogo cartaceo ad uno digitale. I cataloghi sono facilmente accessibili dal nostro sito Web con un semplice clic. Notizie e aggiornamenti sono disponibili attraverso i nostri social network.

As part of the Fizan drive to be even more green, we will no longer produce a printed catalogue. This has been replaced with a digital catalogue which is easily accessible from our web site by a simple click. News and updates will be available through our social networks.

Fizan riduce l'impatto ambientale con imballaggi 100% riciclabili e composti da materiale proveniente da foreste gestite in maniera responsabile e sostenibile. Gli inchiostri utilizzati sono a base d'acqua (non tossici). Ogni singolo articolo prodotto è facilmente riciclabile.

Fizan reduces the environmental impact with 100% recyclable packaging, and composed of material from forests managed in a responsible and sustainable way. The inks used are water based (non-toxic). Every single item produced is easily disposable for recycling.

Da più di 10 anni Fizan ha investito nell'impianto fotovoltaico diventando così, autosufficiente per circa il 60% del proprio fabbisogno ed evitando l'emissione annua di circa 25.000 kg di CO<sub>2</sub>.

For almost 10 years Fizan has invested in the photovoltaic system thus becoming self-sufficient for about 60% of its needs and avoiding the annual emission of around 25,000 kg of CO<sub>2</sub>.

# WINTER

## ALLUMINIO

Fizan utilizza solo materia prima pregiata e di alta qualità. Le due leghe di alluminio (7075-5083) vengono fornite solo da partner certificati. L'alluminio garantisce leggerezza e durabilità nel tempo.

## ALUMINUM

Fizan uses only high quality and premium raw materials. The two aluminum alloys (7075-5083) are supplied only by certified partners. Aluminum guarantees lightness and durability over time.

## PUNTALE

Fizan per i bastoni invernali offre diverse soluzioni per il puntale. E-Basket è uno speciale supporto che può avere punta in acciaio o metallo duro che può avere una durezza di 73-75 Hrc (quando la norma Iso 6508 richiede un minimo di 50 Hrc).

## TIP

Fizan's winter line-up provides many solutions for the tip. E-Basket is a special support that can have a steel or carbide tip. Which can have a hardness of 73-75 Hrc (when the ISO 6508 standard requires a minimum of 50 Hrc).

CARBIDE

## DESIGN

Fizan per realizzare la grafica nei suoi bastoni utilizza o la tecnica della sublimazione o la tecnica della serigrafia. Le grafiche vengono effettuate da uno studio grafico interno nell'azienda.

## DESIGN

Fizan uses the sublimation or screen printing technique to create the graphics in his poles. The graphics are made by an internal graphic studio in the company.

## PASSAMANO

Il passamano invernale è appositamente studiato per essere confortevole e resistente. I materiali pregiati sono scelti con cura per un design finale accattivante.

## STRAP

The winter strap is designed to be comfortable and resistant. Precious materials are carefully chosen for a captivating final design.

## ROTELLE

Fizan dispone di molte forme di rotelle per la discesa, il fondo e lo sci alpinismo. La più innovativa resta l'unibasket, una speciale rotella che non necessita del supporto per essere inserita.

## BASKETS

Fizan has many types of baskets for alpine and cross country skiing. The most innovative remains the Unibasket, a special factory fitted one piece basket.

## MANOPOLE

Fizan è alla ricerca costante per migliorare l'ergonomia delle impugnature. Per questo vengono utilizzati i migliori materiali, leggeri e confortevoli.

## HANDLES

Fizan is continuously searching to improve design, functionality and comfort for grips. Always choosing the best and lightest materials to provide the lightest and most comfortable grips.

# WINTER MULTI SCARVES

I nostri scaldacollo invernali sono realizzati in tessuto tubolare, di microfibra di alta qualità e all'interno vengono rivestiti con un **morbido strato in pile**. Il sistema Microfresh favorisce la termoregolazione sia in estate che in inverno. Il tessuto in poliestere e gli inchiostri utilizzati sono forniti da partner certificati e sono a base d'acqua e non tossici. Gli scaldacollo vanno lavati a mano o in lavatrice in acqua tiepida con sapone neutro. I nostri packaging sono 100% riciclabili e provenienti da foreste gestite in maniera responsabile ed ecosostenibile.

Our winter multi scarves are made of tubular fabric, of high quality microfiber and inside are lined with a **soft fleece** layer. The Microfresh system favors thermoregulation in both summer and winter. The polyester fabric and inks used are supplied by certified partners and are water-based and non-toxic. The neck warmers should be washed by hand or in the washing machine in warm water with neutral soap. Our packaging is 100% recyclable and from forests managed in a responsible and eco-sustainable way.
